The Seed and Soil train was in Montgomery last Friday and drew quite a crowd. There were three coaches where seed and soil were on exhibition, with lectures by practical farmers on the various phases of scientific farming. The talk on the proper method of selecting seed corn, we believe, is of immense value to farmers if properly carried out. The breeding of seed corn the past few years has produced great results, and corn has been produced to suit every climate in the U. S. The railroad is seeking to improve in this way, the quality and quantity of grain grown along the line of their roads to the mutual benefit of all concerned.

LA CROSSE LUMBER CO'S READY MIXED PAINTS Leads the rest. Stands the test. Proves the best.

POEMS TO MEMORIZE

This department is a sort of "Poet's Corner." Under the heading "Poems to Memorize" will be found some old familiar poem each week which, we believe will be of interest to our readers.

FOR ALL THESE

BY JULIET WILBOR TOMPKINS

I thank thee, Lord, that I am straight and strong,
With wit to work and hope to keep me brave;
That two score years, unfathomed, still belong
To the allotted life thy bounty gave.

I thank thee that the sight of sunlit lands
And dipping hills, the breath of evening grass—
That wet, dark rocks and flowers in my hands
Can give me daily gladness as I pass.

I thank thee that I love the things of earth—
Ripe fruits and laughter lying down to sleep,
The shine of lighted towns, the graver worth
Of beating human hearts that laugh and weep.

I thank thee that as yet I need not know,
Yet need not fear, the mystery of the end;
But more that all, and though all these should go—
Dear Lord, this on my knees!—I thank thee for my friend.

The colored people's school house burned down Thursday morning at 8 o'clock. The library valued at \$60 and some books belonging to Principal Ross valued at \$16 together with the coal house also went up in smoke. Several tons of coal were saved by the pall brigade also the organ in the school house was saved. \$700 insurance. The origin of the fire is not known.

In response to the fire alarm given at 2:30 Wednesday morning quite a crowd came out to the scene of quite a blaze near the freight depot. The Chadwick coal house, and three freight cars were destroyed. The cars contained a small quantity of lumber, a carload of corn which had been delivered to G. W. Bishop, and a car load of baled hay which was to have been delivered to James Cunningham, all of which was destroyed. Some sacks of potatoes to have been delivered to Cunningham were removed. On account of the old building having been removed recently to be replaced by a new one, the ice belonging to Broeder Bros., was piled up near the coal house; while this and the coal stored in the house mentioned above suffered seriously the bulk of it was saved. The hose was brought to play on the flames, but was too feeble to save the building and cars. It is thought by some that the straw covering the ice perhaps was fired by tramps or by sparks from the railroad engines.

Successful Stock Sale.

The monthly stock sale here Monday, March 18, broke all previous records, both in attendance and for the amount of stock sold. Manager C. H. Mumford has proven himself the right man for the place, and has succeeded in making this sale interesting not only to the stock men and farmers of this county, but from adjoining counties buyers now attend the sale. The weather was all that could be expected, and the dragging of the streets added materially to the convenience of the stockmen and to the appearance of the town.

The next sale will be on April 15, and Mr. Mumford has plans laid to eclipse anything ever pulled off here in this line. The TRIBUNE reporter talked with quite a few stockmen and they all expressed themselves well pleased with the prices stock in general brought at this sale.

La Crosse Lumber Co's MAGI ROOFING. Put up expressly for them. The price is low considering its good quality. Use it and tell your neighbor about it.
